EXPERIENCE

Recapita

May 2025 – Present

India

– Freight compliance SaaS for CHAs & freight forwarders (recapita.in)

- Building compliance software targeting **INR 18,000+ Cr** in unclaimed and delayed refunds caused by filing inefficiencies across freight forwarders and CHAs.
- Shipped **OCR-based document extraction** for invoices, shipping bills, and customs paperwork, reducing manual errors and accelerating filing speed and compliance accuracy.

GodamLelo

Dec. 2024 – May 2025

India

– Warehouse discovery & booking marketplace (godamlelo.com)

- Built a warehouse marketplace digitizing discovery, pricing, and utilization for the **~90% unorganized** warehousing sector in India.
- Grew organically to **250+ warehouse listings in 4 months** by aggregating supply–demand across fragmented storage networks and driving partner onboarding.

Logisetu

Jun. 2024 – Apr. 2025

India

Logisetu – AI-driven logistics platform for unorganized trucking (logisetu.com)

- Designed logistics solutions for the **~80–85% unorganized** trucking ecosystem, integrating **AI agents** for load matching, routing, and dispatch decisions.
- Improved fleet utilization and reduced empty return trips through automation and real-time coordination across dispatchers and fleet operators.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C++, Go, SQL, HTML/CSS

Backend: Spring Boot, Django, Node.js, Express, FastAPI, REST APIs, GraphQL

Frontend: React, Next.js, AJAX, Tailwind CSS

Databases: PostgreSQL, MySQL, Redis, MongoDB

AI/ML: LlamaIndex, LangChain, RAG, OpenAI API, Vector Databases, NLP, AI Agents, Hugging Face

Core CS: DSA, OOPs, Multi-threading, Concurrency, DBMS, Distributed Systems

Infra & Tools: Docker, NGINX, Git, Linux, Bash, CI/CD

EDUCATION

Scaler School of Technology

Bengaluru, India (2023–Present)

Undergraduate Program in Computer Science

CGR 6.14

Birla Institute of Technology and Science (BITS Pilani)

India, (2023–Present)

B.Sc. (Hons) in Computer Science (Degree Partner)

CGPA 7.89

PROJECTS

GodamLelo – Warehouse Marketplace godamlelo.com

Dec. 2024 – May 2025

- Built a **two-sided platform** for warehouse discovery, booking, and capacity optimization spanning owners and businesses.
- Implemented inventory visibility, **dynamic pricing**, and partner onboarding flows, scaling to **250+ listings** organically in 4 months.

Logisetu – AI-Driven Logistics Platform logisetu.com

Jun. 2024 – Apr. 2025

- Developed **AI-agent modules** for load matching, route optimization, and dispatch automation for unorganized trucking operators.
- Enabled **real-time tracking** and data-driven fleet allocation, reducing empty return trips and improving utilization across partner fleets.

Recapita – Freight Compliance Software recapita.in

May 2025 – Present

- Built **OCR pipelines** extracting structured data from invoices, shipping bills, and customs documents for CHAs and freight forwarders.
- Automated compliance workflows and filing processes, addressing **INR 18,000+ Cr** in unclaimed/delayed refunds caused by filing inefficiencies.
